ABOUT US

This is not just about us. This is about everybody. We, at BatX Energies Pvt. Ltd., are just the agents of change whose mission it is to create a truly Circular Economy. We're doing our part by extracting Rare Earth metals such as Lithium, Cobalt, Nickel and Manganese from used Lithium-ion cells. The result of this is that these precious Rare Earth metals can go back into manufacturing Lithium-ion batteries. Circularity, remember?

BATX Energies(EV Battery Recycling Company India): Revolutionizing India's EV Landscape - The Green Drive Towards Tomorrow

Welcome to BATX Energies Pvt. Ltd., where innovation and eco-consciousness converge to redefine the future of electric vehicles in India. As the premier EV battery recycling company India, BATX Energies stands at the forefront of sustainable solutions, offering a comprehensive range of services from EV battery manufacturing to cutting-edge recycling.

Sustainable EV Battery Solutions:

Being one of the best EV battery recycling companies India, BATX Energies is not just a company; it's a movement driving sustainable change. Our commitment to a Circular Economy and international initiatives positions us as the go-to solution for eco-friendly EV battery production in India.

The logo for BATX, featuring the letters 'BATX' in a bold, sans-serif font. The 'X' is stylized with a green arrow pointing to the right and two blue dots above and below it.
