B.Tech ME Admission in Lucknow

Shri Ramswaroop Memorial University (SRMU) in Lucknow offers a specialized **B.Tech ME Admission in Lucknow** in Mechanical Engineering (EV Engineering). This program focuses on electric vehicle technology and is designed in collaboration with L&T. It combines industry-driven modules with hands-on experience in areas such as EV design, battery technology, electric powertrains, and smart mobility solutions. Students also gain practical exposure through internships, live projects, and training at L&T's advanced facilities. The curriculum emphasizes innovation, research, and skill development, preparing graduates for successful careers in leading automotive and energy sectors. To be eligible, students must have completed 10+2 with Physics, Mathematics, and Chemistry/Computer Science. This four-year program equips students with the knowledge needed for the future of electric vehicle engineering.
