

B2B Solar Solutions

Best solar epc in india

Explore why Enernew is recognized as the **Best Solar EPC in India**, delivering end-to-end engineering, procurement, and construction services for solar power projects. This presentation showcases our proven track record, cutting-edge technology, and commitment to quality, driving clean energy success for businesses nationwide.

Rooftop (CAPEX / OPEX)

Our rooftop solar solutions are expertly designed to maximize the utilization of available roof space, delivering efficient and sustainable energy tailored to each client's needs. Clients can choose between the CAPEX model, where they own the system outright, or the OPEX model, which allows them to pay for the energy generated without the burden of ownership, ensuring a seamless and cost-effective transition to renewable energy.

Ground Mount (CAPEX / OPEX)

Our ground-mount solar solutions provide a powerful and reliable energy alternative for businesses with ample land resources. Like our rooftop offerings, clients can select between CAPEX and OPEX models, allowing them to align their choice with their financial strategies and operational goals, thereby fostering a sustainable energy future tailored to their unique requirements.

Custom Solar Solutions for Design and Execution

Design and Engineering

At Enernew, our expertise in design and engineering is unparalleled. With over 50 MW of solar plants designed for top clients, our in-house team of highly experienced engineers ensures that each project is tailored to meet the specific requirements of Commercial & Industrial (C&I) clients. Our designs are optimized for efficiency, reliability, and sustainability.

Turnkey Project Execution

Enernew excels in turnkey project execution, having commissioned over 50 MW of solar power projects across India. Our dedicated team of project managers and site engineers manages every aspect of project execution, ensuring that projects are completed on time, within budget, and to the highest standards.

HSSE Compliance

Health, Safety, Security, and Environment (HSSE) are at the core of our project execution. Before starting any project, our team strictly adheres to our HSSE policy. Our HSSE managers conduct regular audits during project execution to ensure compliance, and construction is carried out under the highest safety standards.

Quality and Assurance

Our commitment to excellence is reflected in our rigorous quality and safety standards. Enernew employs comprehensive quality assurance plans, procedures, and work instructions to ensure that every project meets the highest level of quality and safety. Our dedication to quality ensures the long-term reliability and performance of our solar energy solutions.
