How Does NewEra Protect Work?

NewEra Protect™ is expertly formulated to address the core causes of bladder leaks, urgency, and discomfort—such as weakened pelvic floor muscles, inflammation, and oxidative stress. This powerful, plant-based supplement helps restore tone and strength to the tissues that support your bladder, delivering lasting relief without chemicals or invasive solutions.

Key ingredients like **Resveratrol** and **Sumac Extract** work to combat inflammation and oxidative damage, protecting your tissues from premature aging. **Horsetail Extract** promotes natural collagen production, improving elasticity and firmness where it's needed most.

By nourishing and strengthening the pelvic floor, NewEra Protect™ helps reduce stress incontinence and regain voluntary control—especially during coughing, sneezing, or sudden movements. The antioxidant-rich formula also supports cellular health, helping reverse the effects of aging on your bladder.

Additionally, Horsetail supports the production of **Tamm-Horsfall protein**, a key factor in maintaining urinary tract health and reducing bladder irritation. This promotes a more balanced, resilient bladder environment from within.

When taken consistently, NewEra Protect™ delivers gradual, compounding benefits. Many women notice reduced urgency, fewer accidents, and greater confidence in just a few short weeks.
